TIMKEN®

BEARING INTERCHANGE GUIDE

THE TIMKEN COMPANY

TIMKEN®

Using the TIMKEN BEARING INTERCHANGE

- *The Timken Bearing Interchange lists manufacturer's part numbers, manufacturer name and the corresponding Timken part number.*
- *It is arranged in numeric-alphabetical sequence.*
- *Numbers are sorted ahead of letters in the same position; hyphens precede numbers or letters in the same position.*
- *Part numbers beginning with a number are listed in the first part of the book, part numbers beginning with alpha are listed in the second part.*

EXAMPLES:

- Characters are sorted from left to right, smallest to largest, A-Z.
  Example:
  67791 precedes 679

- Where there are hyphens in the part numbers, the hyphen is sorted before a number or letter in that same position.
  Example:
  000-981-9905 precedes 009810680

- When part numbers contain both numbers and letters, the numbers are sorted ahead of the letters.
  Example:
  10526 precedes 105C
